

# 2023 Central Illinois Top Prospects

Over the next couple of days, I will post my top 5 prospects in Central IL in 21-22-23 Classes. No particular order. Not a ranking (my opinion), it's just who I feel are the best 5 prospects at the position at this moment. Remember being a better player currently doesn't mean they are a better prospect going forward for the next level. I base my prospect evaluations on what they produce, their potential going forward, the position they will play/guard at the next level, height/length/bounce/quickness relative to position, etc. Please remember that there are a lot more players than the ones mentioned that are really talented & will play college basketball as well.
